Hyde, pioneer resident of Campbell is being given a quick connection with Mark Thomas, city engineer, right, by Betty Trauth, supervisor who has just demonstrated how the dialing works.

At left, Jim Moots, Pacific Telephone cable splicer has a junior miss audience as Linda and Kay Upton, daughters of Mr. and Mr. Oliver W. Upton of El Quito Park, stopped by to ask "What's he doing?" They were fascinated with the many sights in the telephone building, as were their parents and other Campbell people.

Clara Baldwin Publishes Book Of Poetry

A collection of poems by Clara Beebe Baldwin have just come off the press in booklet form, many of the poems having been published in the Campbell Press. A new one, "Vacation Time" appears in this issue on the editorial page.

Clara Baldwin and her sister Luella Whiting, reside at 96 East Rincon avenue, the latter being well known for her art work, her most popular painting being that of the lone tree at Cypress Point which has been reproduced many times. Both came to Campbell in 1914. They grew up on a ranch in Monterey County among the poppies and lupines. In 1920 Clara Baldwin and her husband located in Oakland and there raised three sons and a daughter. About fourteen years ago they returned to Campbell, where a few years ago Mr. Baldwin passed away. The two sisters, now both widows, have a sweet outlook on life, which they ably express in poems and in art.

There are 55 complete poems in the book by Clara Baldwin, many with local color, but all in an expression of character.

School Budget Studied

A tentative budget for \$1,189,633 for the Campbell Union Grammar School in the 1954-55 fiscal year was taken under study Thursday night by the district board of trustees. Before final action is taken, members of the board plan to tour all schools in the district to examine their proposed expenses.

The first public hearing on the budget is scheduled for the first week in August. Detailed plans for the new Monroe School of twelve classrooms are being prepared by Higgins and Root, architects. Preliminary plans have already been submitted and tentatively approved, but whether or not this school is to be built depends on the electorate in approving a \$950,000 bond issue June 24 and the approval of voters in raising the tax ceiling to \$1.80.

Annexation Of Warning Property Planned Soon

The second hearing on the application of the Mayfair Packing company for a regional shopping center at Hamilton avenue and the San Jose-Los Gatos highway is to be held before the Campbell Planning commission tonight at the fire station. Detailed plans of the project to cost several thousand dollars is expected to be submitted by the applicants.

The commission is set to adopt a resolution relating to the Warning annexation on the westerly fringe of Campbell this side of San Tomas Aquina Creek.

Hearings are also scheduled tonight on applications from Kuehn Estates to rezone of 21 lots from R-1 to R-2 zoning and to change footage in unit three to R-3 zoning. The second hearing on application of I. D. Weins at 310 E. Central avenue who seeks to rezone from M-1 to build three 3-room apartments on his property. Mrs. Betty Grimes will seek variance on her property at 129 Rincon so she can enclose porches while Ralph Weaver seeks zoning two lots from R-2 to R3S.

HOSPITAL POLL UNDER STUDY

A poll to ascertain need and the methods for getting a hospital in this area is being prepared today for distribution to some 2500 persons and 250 district voters by directors of the West Valley Hospital district. Some of the contacts will be made personally.

The board wants to know if home owners feel that a hospital is needed, if the property site is satisfactory and if a 50-bed hospital will be adequate. They will also seek to know the voters pleasure as to whether the hospital be privately run or if set up as a community operated project.

If in favor of the hospital, the party interviewed will be asked in favor of another \$500,000 bond issue with which to finance it, while those indicating being opposed to the hospital, will be asked if they prefer dissolving the district.

has not been too keen, mainly because incumbents have not faced competition or great strength and because sharp issues have not developed. Where there are three or more in the race for county or district offices, and the high man does not have more votes than his two opponents, a run-off in the general election will be necessary. In partisan election, the candidate must win on both tickets to avoid a run off.

Governor Goodwin Knight seems likely to carry both tickets, but there will be a close race between Powers, incumbent, and Silliman for lieutenant governor. The other state offices all seem secure for the incumbents, except perhaps that George Reilly may be pushed stronger than expected by Stuart McClure for his Board of Equalization post.

Charles Gubser is popular for re-election to Congressman on the Republican ticket, while Jack Thompson is a favorite for re-election to the state senate.

Hottest fights seem to be that for Assemblyman in the 29th district and for supervisor of the fourth supervisorial district, in each of which there will likely be a run-off in the general election between the two top contestants. Bruce Allen incumbent, faces stiff opposition from Parker Hathaway and Spencer Williams and there will probably be some last minute attacks on him through interests seeking to give program. Allen has said he intends to represent the people and not special interests and for this reason the Press has already indicated endorsement of Allen's candidacy.

For Sheriff, there is a three way fight as also is there in the supervisor race, the incumbents having the edge to poll top number of votes but with hardly enough strength to overcome the combined tallies of the two top opponents.

Authorities predict about 70% vote in Tuesday's election which would mean about 1785 votes to be cast in Campbell.

OPPORTUNITY FOR GRADUATES

Even with a diploma in the hand, there is no short cut to success. It helps, of course; but after all, a diploma is but a piece of paper certifying training. The training, unless used advantageously and frequently, will deteriorate. There is no way in which a school may direct the way its training may be used. That is up to the student.

Some men work themselves into jobs for which they had no particular training, but they make a success of it by keeping on with their education. It doesn't end with the diploma, for education is a continuing effort. Success is the enthusiasm put into the work and enjoyment taken from it.

The senior with the diploma charts his own course. It takes wisdom and restraint for the high school graduate to pass up what looks like big money in favor of further education. The same goes for one coming out of college who would forego higher pay in order to gain opportunity. Opportunity is where you find it. It won't be knocking on your door, for in this world of today, you have to create opportunity, support it, build it, and never let it die. Luck will die, but opportunity that is backed by education, vision, perseverance, work, faith, love, loyalty and integrity is the American way of life.

USE YOUR VOTE

The June 8 election is a highly important one, and every registered voter should take part in it. Primaries are sometimes looked upon as having little meaning, but nothing could be further from the truth. It is no less vital to have a voice in selecting the candidates to run in the general election in November than it is to have a part in the general election itself. It has been said that bad public officials are elected by citizens who don't vote. Citizens who fail to vote in the primaries are also opening the door to possible election of bad public officials. This is not meant to cast doubts on the qualifications of office seekers, but rather to emphasize that the way to get the best people in office is to vote for them. There is no other way.

MARKING TIME WITH TRAFFIC

Just 184 years ago today, on June 3, 1770, Fr. Junipera Serra who blazed the trail for setting up missions in California, founded the Mission San Carlos de Monterey down at Carmel. It has since been renamed San Carlos Borromeo de Carmelo. Missions were spread about at a day's trip apart, and the route went from Carmel to Santa Cruz, Campbell and Mission Santa Clara.

Today's trail along the same course is a speedway. Cars race from point X to point Y so the driver and his party can get there in time to relax and tan in the sun on the beach, stay as long as possible, then race back from Y to point X, the point of beginning.

Wonder what traffic will be like from X to Y in another 184 years? Wonder if the objective of getting from X to Y will be any different? Wonder what the time will be to make the trip? Wonder who will be there? Wonder why we worry over things like that because we won't be around to check up on it? But some scribe might see this item in the files of the Campbell Press, and make something of it. Queer people in those days—Heh, he's talking about us!

CAMPAIGNING IN '54

Here's a new twist to political campaigning along the spectacular side. While it involves Governor Goodwin Knight, we're not saying that he had anything to do with planning it.

They had a non-partisan luncheon at San Francisco the other day for Governor Knight. . . Into the room strode the "Knights for Knight" group, armored and plumed. The Governor was introduced by "Sir David" founder of a group of young men dedicated to the quest for good government. Two of the members have planes which they land in small towns about the state, then step out attired in shining coats of mail complete with helmets and shields giving out copies of the Knight's creed for good government. It is getting favorable attention, so that seems to be a good idea in political campaigns.

CHAMBER OF COMMERCE IS DEFINED

(Contributed)

Do you understand the basic principles upon which Chambers of Commerce are organized? Surely you would agree that this is of prime importance in order to appraise the organization.

A broad term used to define a Chamber is, "Men, working together, to make their community a better place to live and make a living." Let us take just a moment and analyze what has just been stated. "Men," what men? We've heard that just businessmen belong to the Chamber of Commerce. Like a lot of people who have not bothered to investigate, you may have been misinformed, for the Chamber of Commerce wants all men who have a common interest and pride in their "hometown" and its area. Merchants, bankers, lawyers, manufacturers, wholesalers, doctors, clergymen, teachers, salesmen, and any others just so long as they are interested in and are prepared to work for their community.

"Working together," what do we mean by that? We know that you have heard about narrowminded competitors who refuse to work together but that is where the Chamber of Commerce enters the picture. The Chamber arranges for meetings to present ideas, appoint committees, find facts, discuss, vote, and set a course of positive action in the best interests of your community. It not only unites those who are members but also the entire community and what other organization could accomplish that task?

The rest of our definition: "to make their community a better place in which to live and make a living." That should be self explanatory but so long as you may have heard other false rumors you may also have heard that the Chamber of Commerce is just a "handshaking and greeting" organization. Sure the Chamber greets and shakes hands but what a small part of their job that is. It would take a book to tell all of the functions of this organization.

The Chamber of Commerce promotes and fosters commercial, industrial and civic interests, provides facts about your city, answers many inquiries about your city, makes housing surveys, arranges meetings with businessmen and farmers, stimulates effort to provide more parking area, a new city auditorium, a new city airport, keeps up with freight rates which might be the first step in industrial development, informs you of national affairs that concern you and your community, advise on retailers' problems and scores of other "action" programs too numerous to mention.

Will you help the Chamber of Commerce this year by sending in your dues and donations for the 1954-55 year? Let's make this year the biggest ever in the advancement of the Campbell Area.

The Campbell Gambol

I NEVER KNEW There were so many water ways, islands, sloughs and inlets in the delta area from Stockton to Antioch and Sacramento, until this last weekend I had the pleasure of a jaunt about on a slick cruiser which is berthed at a friend at the uptown yacht harbor at Stockton. . . and I never knew there were so many cruisers in the west as was seen in the various yacht harbors in and near Stockton on Sunday night, following a regatta which brought eighty of the fastest in from Antioch, some hailing from Sausalito, Oakland, Vallejo, Redwood City, Sacramento and other places, cruisers which cost from \$10,000 to \$80,000, some diesel powered, some with twin engines, some capable of sleeping twelve comfortably but usually set up for four or eight each, with shower, kitchen and other features found in the better type of house trailers. . . a radio system lets the skipper call and talk with other ships and tuning in this is like leaving the receiver off for a party line phone, as these cruiser owners most all know each other and they will call back for someribbing after the all-clear signal is given, sometimes to talk about where the fish are biting, the kind of bait, what's cooking for dinner and making dates to meet at a certain point at a fixed time.

THERE ARE 2000 miles of navigable water ways in the delta area between Stockton and Sacramento, but it is only a 100 mile cruise between these cities. . . little islands are formed by sloughs and rivers, their banks massed with ferns, wild berries, grape, willows and sycamores. . . many strange and familiar birds and animals may be seen away from the beaten path. . . mine host had two cruisers, a 28-footer and a 24-footer, named the Maui Girl and the Quest, and we went out on the former to Lost Island, Twitchell Island, Georgi-

ana Slough, Whiskey Slough, passing the mouth of the Mokelumne river Potato Slough, Whiskey Slough, False river and in and out of little inlet retreats decked with beautiful homes and gardens. . . berthed next to us on Saturday night was a doctor and his family in a new cruiser from the St. Francis Yacht Club at San Francisco, with everything modern on the boat which one would expect in the best apartment. . . we saw a cruiser pull in opposite us with the Union Jack and emblem from Vancouver, B. C. and quite unexpectedly met the two men aboard at dinner on Sunday, insisting that we accompany them to the Yacht Club. . . we had seen the eighty or more cruisers pull into port while we idled along the banks. . . the Canadians had cruised down the coast to San Diego, shipped their boat by train to New Orleans, cruised to Florida and up the Atlantic Coast, to the Hudson then to each of the Great Lakes and shipped back to Los Angeles. . . now they were to explore the Delta area before taking off on the final leg of their voyage to Vancouver. . . their was one of the largest boats and was attracting a lot of attention because of having different features from the Chris-Crafts and other type cruisers which had overnight become so common. . . one of the Commodores told me there were between 300 and 400 cruisers berthed at Stockton on Sunday night with a total value of more than three million dollars which isn't hay.

Two of the cruisers in the race were manned entirely by women, but the 38-foot Stephens cruiser Lelabob II took the over-all honors in the 28 mile race from Antioch to Stockton setting a new record and a 15-year old skipper, George Olson, Jr., piloted his dad's 48 foot Chris Craft to a win in the Class A division.

Newsman To Stage Gridiron Dinner And Put Officialdom On The Pan

Stuffed shirts in Campbell? Maybe not, but if there are any even slightly puffed up they'll get deflated June 12 at San Jose Newspaper Guild's third annual Gridiron Dinner, to be held at Santa Clara County Fairgrounds.

Top Campbell officials and citizens are among about 700 county leaders invited to the dinner, slated to be the biggest in the dinner's history.

The affair will be in the huge Exposition Hall at the fairgrounds, where newsmen will have lots of room for taking the starch out of pouter-pigeon officials.

After dinner, reporters and other guildsmen will take to the stage, and present their impression of what would happen if the county was the subject of a Congressional investigation. A series of skits, "How Red Was My Valley", will be presented.

These skits will show officials how they really look to working

SCHOOL DISTRICT TAXES INCREASED

In Santa Clara county the \$39.35 per capita property tax levied for schools for 1953-54 is 3.4 per cent greater than the \$38.07 levied per capita for 1952-53, California Tax-payers' association said today.

"Per capita" means per person of the entire population—not school age population alone, the association pointed out.

Total property tax levied for the school districts in the county reached \$14,657,610 for this year, compared with \$13,211, 147 for last year. Included are local levies for school operation, debt service, and retirement.

Everett Nelson, co-owner of Nelson Brothers Trucking, will chair-man a Campbell committee for the candidacy of Williams, according to Edward F. Tablak of Campbell, general campaign chairman.

Hawley Getting More Support

Prominent civic and business leaders and veterans groups are joining the campaign to elect Melvin L. Hawley, 34 year-old deputy district attorney, as Sheriff of Santa Clara County at the June 8 Primary Election, according to General co-chairman of the "Hawley for Sheriff" committee, Fred A. Wickett and Patrick H. Pea-body.

J. Pearce Mitchell, former mayor of Palo Alto, has joined the Palo Alto Hawley committee, which includes Dean Carl B. Spaeth, head of the Stanford Law School and Mrs. Mildred Corcoran, former Palo Alto council-woman.

A. A. (Al) Dempsey, San Jose insurance executive, has accepted chairmanship of the Hawley for Sheriff finance committee, urging Hawley's election "because of his outstanding administrative abilities combined with a working knowledge of law enforcement problems."

Tom Doyle, Jr., a graduate of Stanford in 1949, and sales manager of the Tom Doyle Company, will chairmen the "Hawley for Sheriff Veterans Committee."

Meanwhile Hawley himself continued to lash out at his incumbent opponent for what he terms, "the present sheriff's indifferent attitude to the County Jail problems, lack of proper administration, and constant refusal to take a stand on any of the current issues of the campaign such as rehabilitation of prisoners, a suitable county jail farm and juvenile delinquency."

The oldest tree growing in the State of Texas is a cypress at Colcan, estimated to be 4000 years old.

Los Angeles County had 11,973 farms in 1950, according to the Census of Agriculture of that year.

The trophy was awarded by the Kiwanis club to the player showing most improvement during the year and in this case Stein said his outfielder's batting average jumped from 240 to 350 for the season.

Bruce Allen Tells Of Savings From His Enacted Bills

Assemblyman Bruce Allen, 29th District incumbent, explained how his five bills dealing with welfare payments, passed by the legislature last year, will save California taxpayers over \$1,000,000 a year, at a voters meeting held recently at the Dean Chamberlain home, 116 E. Campbell Avenue.

The bills were formulated, he explained, to make it tougher on welfare chiselers, and also to insure the right of the truly needy to obtain legitimate aid. Among other provisions, the bills require all applications for aid be notarized and all government records be available to district attorneys in location of missing fathers.

Campbell residents attending were Mr. and Mrs. Robert Manthey, Mr. and Mrs. Al Cobb, Mr. and Mrs. L. C. Schaper, Mrs. Ralph Nelson, Gregory Parker, Ernest Foreman and George Nelson.

GEMS OF THOUGHT
It is one of the beautiful compensations of life that no man can sincerely try to help another, without helping himself.

CAMPBELL MAN IS ACTIVE IN STATE FARM ORGANIZATIONS

The need for a farmer organization is strongly advocated by Frank Steindorf of Campbell, director from Region 4 for the California Farm Bureau who is active in many organizations in addition to operating a 200 acre ranch in Campbell devoted to apricots, prunes, cherries, walnuts and berries. He also operates a 700 acre ranch devoted to cattle and grain near Tracy.

Last week Steindorf was appointed by the State Department of Agriculture to the advisory board to assist in the administration of the marketing order of dried prunes. Last week also he was re-elected as a member of the Cambrian school board.

For the past 25 years, he has been active in Farm Bureau. He has held all of the offices in the Southwest Center, his home center; has served as first vice president of the Santa Clara County Farm Bureau, and as CFBF delegate from Santa Clara County. Eight years ago, Steindorf became director from Region 4. During those years, he has been active on many farm Bureau committees on a statewide level.

In addition to his Farm Bureau work, Region 4's director has taken an active role in activities of other farm organizations. He was one of the organizers of the California Prune and Apricot Growers Association, and has worked with that group for many years, serving as a director for the past 13 years, and as a member of the executive board for the past seven. Steindorf also serves on both the state and federal Prune Advisory Committees.

He is first vice president of the Pacific Coast Cherry Growers and Industry Foundation, of which he was a charter member in 1944. He has represented the Foundation in Washington ten times, in an effort to keep the import price of cherries in fair competition with the domestic price.

He says he has never regretted the long hours he has worked for farm organizations. And from a personal standpoint, Steindorf feels that his participation in activities having to do with many different agricultural commodities has given him an especially broad outlook on the farm picture in California and the Nation.

RE-ELECT

ASSEMBLYMAN
BRUCE F. ALLEN

LET HIS RECORD
SPEAK FOR ITSELF!

Bruce Allen served well on the following important committees in Sacramento: Ways and Means, Judiciary, Agriculture, Public Works and Conservation, and Interim Committee on Tidelands Oil Funds.

Bruce Allen authored AB 1, which greatly strengthened California schools, and many bills eliminating welfare chiselers, etc.

Bruce Allen is a member of the Assembly economy bloc and the good government group that reduce the strength of Samish and corrupt lobbyists.

Bruce Allen continually and effectively supported legislation for traffic safety, better highways, development of our water resources, raising taxes on breweries and distilleries commensurate with those in other states to help meet our state's deficit, liquor control reform bills, support of San Jose State College, school construction, and the widening of the Monterey Highway.

FACTS ON DOPE BILLS

Bruce Allen, whom Gordon Fleury, California Assembly Judiciary chairman said did much to strengthen the effectiveness of our criminal statutes, says, "I voted and worked for a law passed last year which greatly strengthened and toughened our narcotics laws, defined new offenses, and increased the penalties up to 25 years in prison. This year, I voted against a politically inspired bill which will result in more short term jail sentences for dope peddlers. I stand for tough narcotic legislation."

FACTS ON CHILD CARE

Bruce Allen says, "I voted for the child care centers bill on June 10, 1953, after amendments which I had proposed were added.

FACTS ON RECREATION

I voted to support Clark Bradley and the legislative auditor in a move to eliminate this war surplus agency which had accomplished its purpose and will save the taxpayers \$90,000 each year.

FOUR AREAS IN SARATOGA PLAN TO INCORPORATE

Four civic groups are today studying the Coro Foundation report on the proposed incorporation of Saratoga. It deals with problems related to municipal government. An 87 page report, it was compiled by J. Kenneth Norris and was submitted Thursday night.

Receiving the report were representatives of Saratoga Merchants' Association, Lions Club, and Chamber of Commerce and Quito Merchants' Association organizations which have urged study of incorporation since September, 1953. Receipt of the report ends the duties of Saratoga Survey committee, headed by Paul Basham, which has consulted with Coro.

Norris, in the report, divided the Saratoga area into four divisions. The Saratoga Fire District; the Quito and Workman tracts; the Glen Una, La Hacienda, Sobey Road area to the south and east of the fire district; and another small area along the northern boundaries of the fire district.

Campbell Twins To Have Entries At Hobby Show

A pair of junior entomologists from Campbell, Douglas and David Morris of 786 Lantz Avenue, will have an extensive collection of butterflies and moths on display at the Santa Clara County Hobby Show scheduled for this weekend (June 4, 5, 6) in the County Fairgrounds Exposition Hall, Monterey Highway at Tully Road.

Hobby Show hours will be 10 a. m. until 9 p. m. Friday and Saturday, noon until 6 p. m. Sunday. Admission will be free. In addition to display items, there will be several hobbies-in-action booths and the San Jose Movie Club will show its work. For still camera enthusiasts, there will be a photo salon.

This is the second year the Hobby Show has been sponsored by the San Jose Junior Chamber of Commerce in conjunction with an industrial arts show staged by the Santa Clara chapter of the California Industrial Education Association.

The Campbell entomologists are 12-year-old twins. In the last three years they have collected enough butterflies and moths to fill 21 cases. During family junkets covering the coast from Los Angeles to Seattle and east to Salt Lake, it is not unusual for the auto to stop in a cloud of dust, with the boys emerging in pursuit of a flying insect.

Their father has chronicled some of the better chases with his movie camera. The boys' butterfly and moth collection comes second only to their interest in baseball—and sometimes they aren't sure the sport outranks the collection in their hearts.
